1. The amendment filed on 2/9/05 has been entered.

Claims Rejection Under 35 USC - 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7, 10-16, 19-22 and 43-46 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by **Thomas** (4,989,960).

Thomas discloses reducing stray light in optical system comprises lens 32, 34 and 36, a darkened area 26 formed on surface entirely outside an effective area of the lenses to distinguish between a surface and a back of the lens.

It should be noted that although claims are "method claims", the method steps consist of the broad steps of "forming", "coating" etc and therefore these steps would be inherently satisfied by the apparatus of the reference as modified.

Response To Applicant argument

3. Applicant's arguments with respect to claims 1-7, 10-16, 19-22 and 43-46 have been considered but are most in view of the new ground(s) of rejection.
